THE ELEGANCE OF MARBLE

ELEGANZA E RAFFINATEZZA. Blustyle amplia la propria gamma con una serie dedicata ai marmi più belli e ricercati in natura: dall'Italia CARRARA e PALISSANDRO, da sempre espressione di bellezza e monumentalità. Dalla Spagna EMPERADOR e SIERRA, nella loro versione più prestigiosa e apprezzata.

SUPERFICIE SILK. La superficie della versione Silk ha la morbidezza setosa e il riverbero opalescente del marmo patinato.

SUPERFICIE GLOSSY. La superficie Glossy è lucida, col tipico "effetto acqua" dei marmi levigati. Brillantezza e luminosità per un pavimento prezioso e facilmente pulibile.

---

ELEGANT AND REFINED. Blustyle expands its range with a series dedicated to the most beautiful and sought-after marbles offered in nature. These are the Italian CARRARA and PALISSANDRO, both timeless expressions of beauty and monumentality, and the Spanish EMPERADOR and SIERRA marbles in their most prestigious and highly appreciated form.

SILK SURFACE. The surface of the Silk version has the silky smoothness and opalescent reflection of honed marble.

GLOSSY SURFACE. The surface of the Glossy version is shiny, with the typical "water effect" of polished marble. Brightness and luminosity for exquisite easy to clean floors.

THE ELEGANCE OF MARBLE

QUALITÀ E ALTA DEFINIZIONE IN 3D. Un nuovo sistema di decorazione permette di ottenere immagini di stupefacente fedeltà: colori di altissima qualità, massima definizione dei dettagli e impressionante effetto di profondità di campo a 3 dimensioni, con un livello di dettaglio e un allineamento dei disegni mai ottenuto prima d'ora. Una qualità che si coglie a colpo d'occhio. Inoltre, per questi quattro marmi sono state selezionate e riprodotte ben 25 diverse immagini cadauno: una varietà che rende ancor più autentici questi marmi ceramici.

---

QUALITY AND HIGH DEFINITION 3D. A new decorating technology enables the reproduction of images with astonishing accuracy, beautiful colours, high definition and an impressive three dimensional effect, with a level of detail and precision never seen before.

This quality is noticeable instantly. For each of these four marbles an array of 25 different images has been developed. This diversity makes these marble ceramics even more authentic.

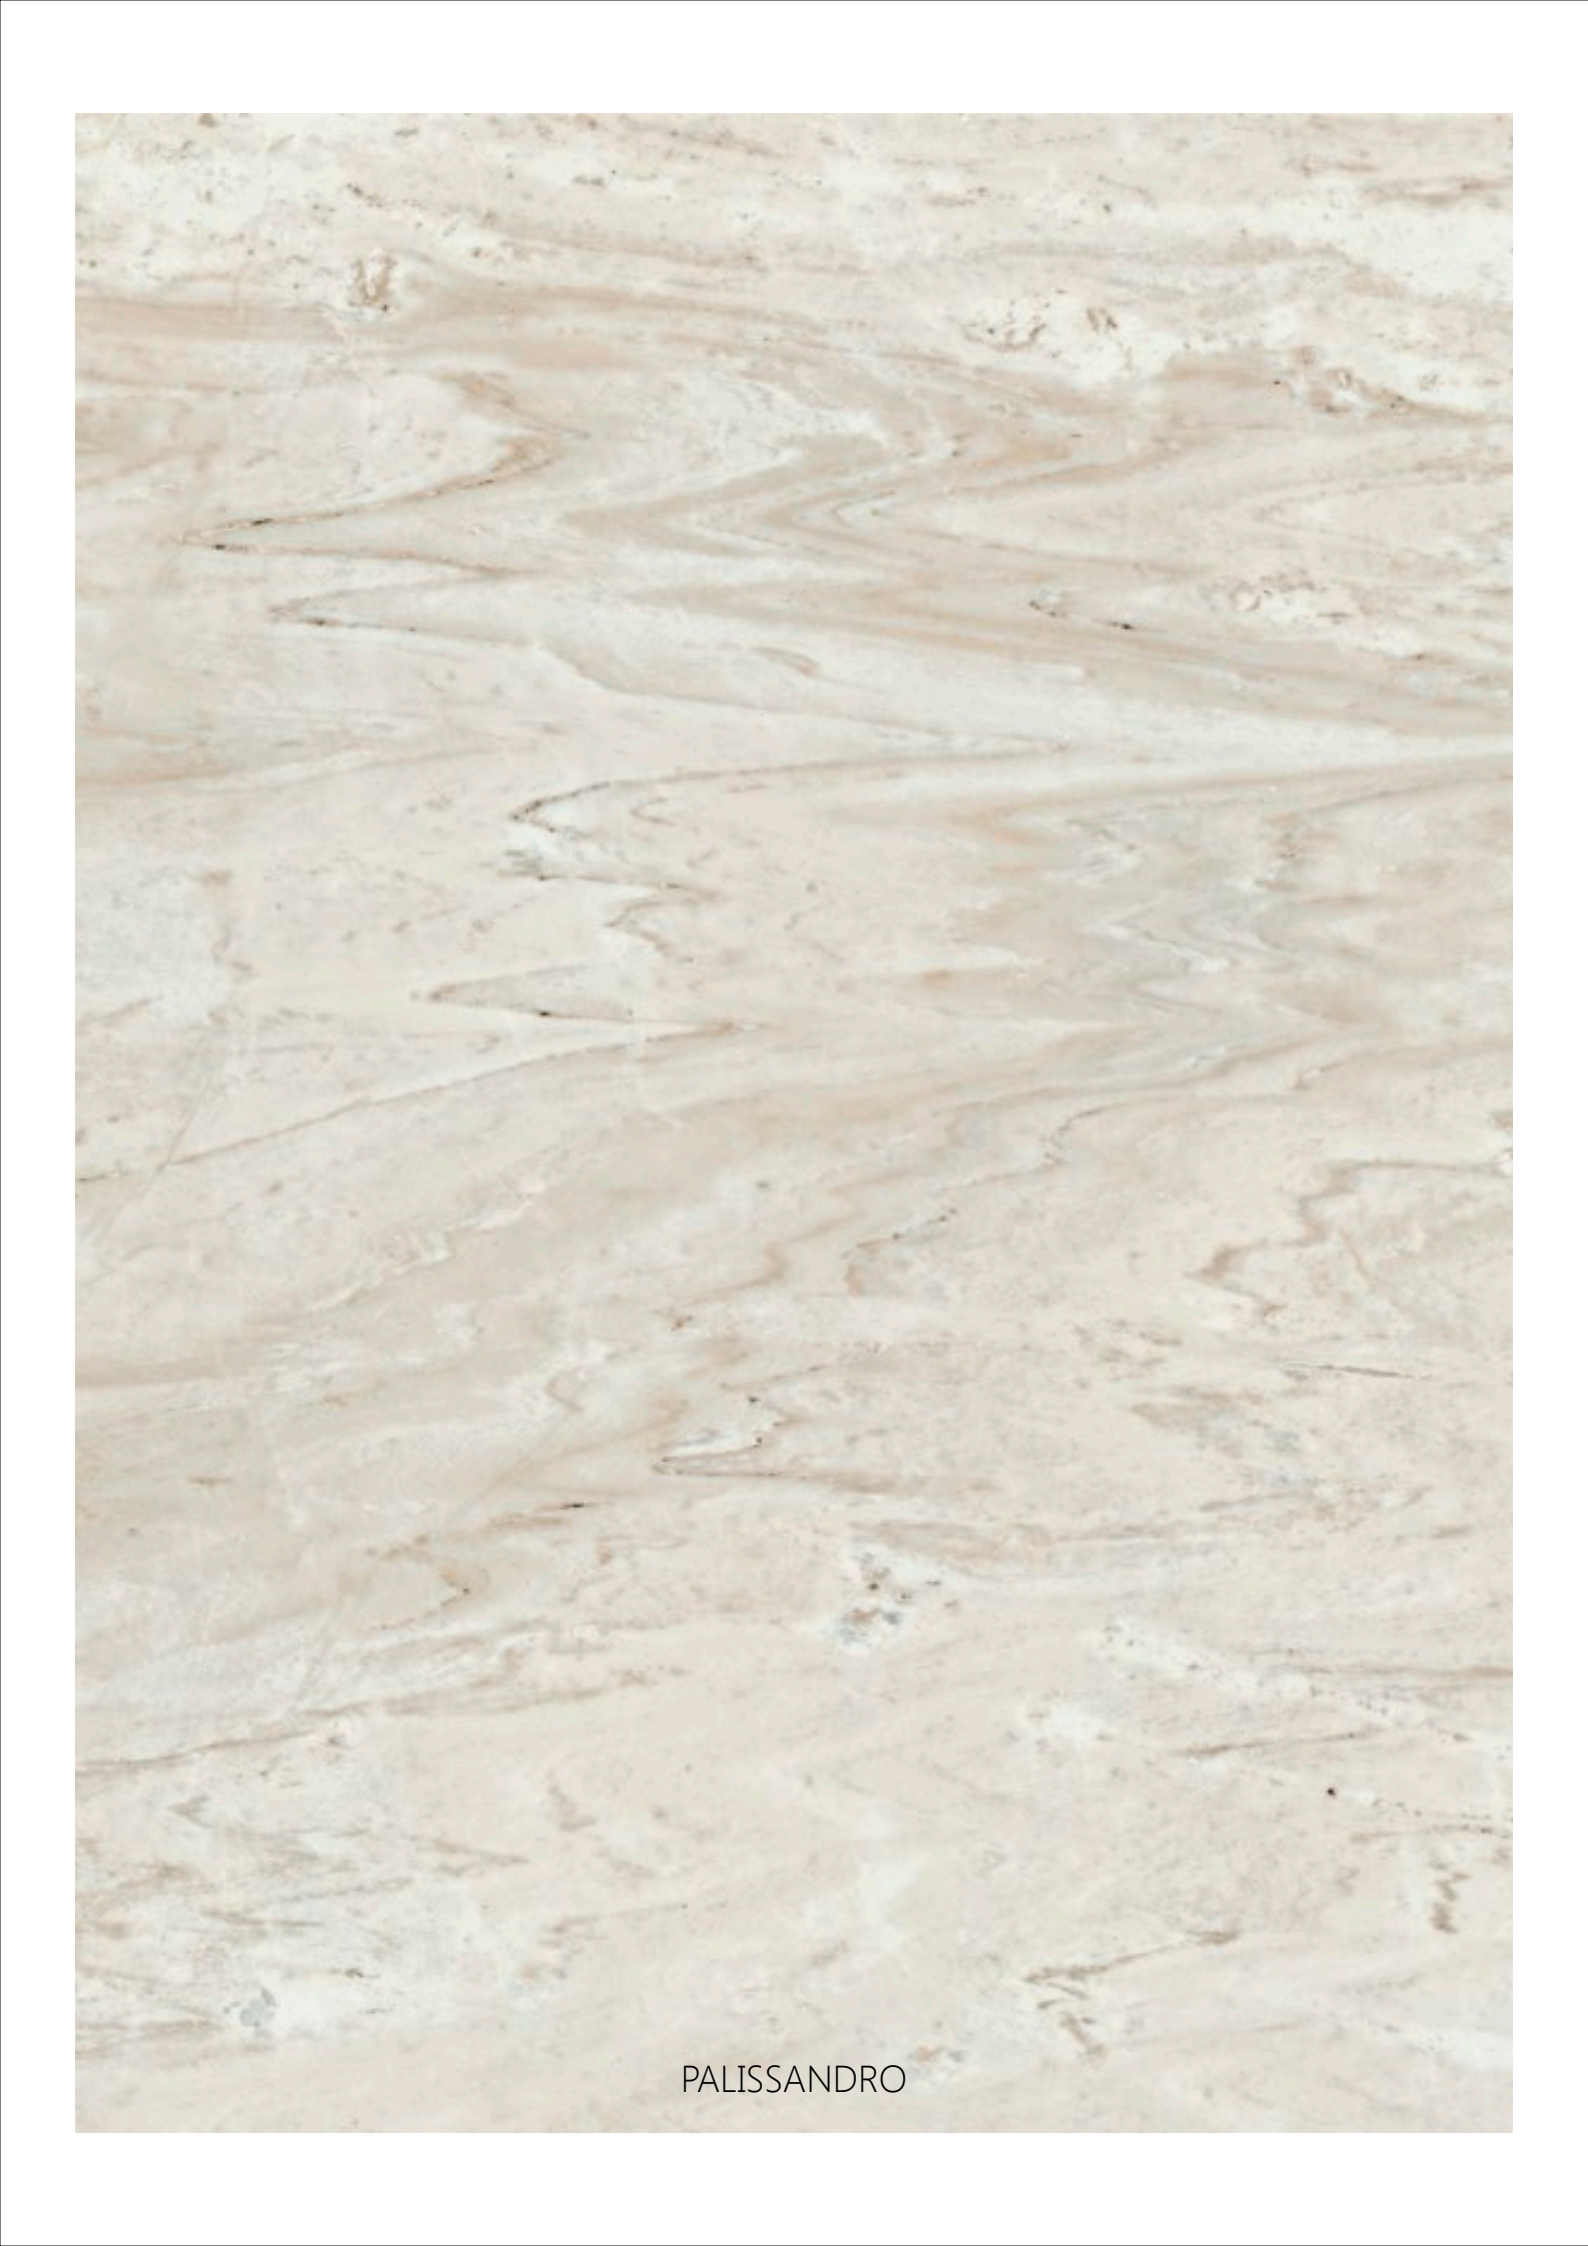

CARRARA

SIERRA

The image displays a detailed view of a marble surface. The pattern is characterized by intricate, wavy, and somewhat chaotic veins in shades of light beige, cream, and pale brown. The overall appearance is that of a natural stone with a complex, organic texture. The lighting is even, highlighting the subtle variations in color and the fine details of the veining.

PALISSANDRO

The image displays a full-page view of marbled paper. The pattern is a complex, organic mix of colors, primarily earthy browns and tans, with occasional streaks and spots of muted blue and light grey. The overall effect is reminiscent of natural stone or aged parchment with mineral inclusions. The texture appears slightly grainy and uneven, characteristic of traditional marbling techniques.
